

Adwita Jindal

Aspiring Software Engineer — 5th Semester Computer Science Student

Ludhiana, Punjab — +91-6280730822 — Adwita.jindal.42@gmail.com —
<https://www.linkedin.com/in/adwita-jindal/> — <https://github.com/adwitajindal>

Professional Summary

Detail-oriented Software Engineering student with strong skills in Java, full-stack development, and DSA fundamentals. Experienced in building scalable web applications using MERN. Quick learner with hands-on project experience and solid understanding of OS, DBMS, CN, and backend systems. Passionate about contributing to real-world software solutions in collaborative environments.

Education

Bachelor of Engineering in Computer Science

Chitkara University, Rajpura, Punjab

Expected Graduation: August 2027

Current Semester: 5th

CGPA: 8.69

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Cloud Computing Fundamentals, AWS Cloud Concepts, Web Application Development, Python Programming

Technical Skills

Programming:	Java (Primary), Python (Basics), C, C++, SQL
Web Technologies:	React.js, Node.js, Express.js, REST APIs
Databases:	MySQL, MongoDB
Cloud:	Basic understanding of Cloud Computing, AWS EC2 & S3 concepts
Tools:	Git, GitHub, Postman, VS Code
Core CS Concepts:	Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Projects & GitHub

Travel Story Manager

Tech: React.js, Node.js, Express.js, MongoDB, Tailwind, Multer

GitHub Repo: <https://github.com/adwitajindal/Travel-story-manager>

- Developed a full-stack platform for users to create and manage over 100 travel stories.
- Implemented secure auth, session handling, and a guest-mode feature.
- Built REST APIs with Express.js and integrated image uploads via Multer.
- Created a responsive frontend using React.js + Tailwind CSS.

ZaikaKart – Online Food Ordering Platform

Tech: React.js, Node.js, Express.js, Spring Boot, MySQL, REST APIs

GitHub Repo: <https://github.com/adwitajindal/ZaikaKart/tree/main>

- Developed a full-stack food ordering platform with React.js frontend and Spring Boot backend.
- Implemented user authentication, cart management, and order processing with REST APIs.
- Integrated MySQL for structured data storage and optimized database queries for performance.
- Built responsive and interactive frontend using React.js for a smooth user experience.

Experience

Organizing Executive

Coding Ninjas [Technical Society]

Jan 2024 – June 2024

- Supported event planning, scheduling, and coordination for technical workshops and coding events.
- Collaborated with team members to manage tasks, communicate updates, and ensure timely execution.
- Developed leadership, communication, and organizational skills through active participation.

Employability Skills & Leadership

Project Management:

Assisted in planning tasks, prioritizing work, and tracking progress across projects.

Teamwork & Collaboration:

Worked effectively in teams, supported peers, and handled challenges constructively.

Problem Solving:

Applied logical thinking to analyze issues and propose practical solutions.

Adaptability:

Quick learner, open to feedback, and comfortable embracing change.

Time Management:

Met deadlines, managed multiple tasks, and maintained consistent productivity.
